ROOT APPLICATION

4238912F07P1EF 03

ACTIWAVE

FO02574 | 4238912F07P1ER 03

APPLICATIONS RATES TIMING: APPLY EVERY 7 - 15 DAYS.

FERTIGATION:

1.5-2.0 gallons per acre per application

Localized application to trees under nutritional and/or temperature stress: 1.4-2.0 fl.oz per tree

DRENCH APPLICATION: 10.0 - 16.0 fl.oz in 25 gallons (with the intention to apply 0.8-1.6 gallons per acre)

Crops in "substrate":
8-10 gallons per 1000 gallons water

DIRECTIONS FOR MIXING

If mixed with fertilizers based on calcium or magnesium is advisable to conduct a jar test for compatibility.

ATTENTION: The product is stable in range of pH 4 - 10.

The product acts, when it contacts the root system. In case over head applications, apply enough water, able to leach the product to the roots. Apply ACTIWAVE during the end of irrigation.

CONDITIONS OF SALE: Seller warrants this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with direction under normal condition and use. No one other than an office of the seller is authorized to make any warranty, guaranty or direction concerning this product. Because time, place, rate of application and other conditions of use are beyond the seller control, the seller's liability from handling, storage, and use of this product is limited to replacement of the product or a refund of the purchase price. It is impossible to eliminate all risks associated with the use of this product. Crop injury, lack of performance, all other unintended consequences may result because of such factors as use of the product contrary to label instruction, abnormal condition, presence of other material, the manner of application, or other factors, all of which are beyond the control of Valagro USA or the seller. All such risks shall be assumed by buyer.
